# Manly Council Bushcare

## Bushcare in Manly

---

**The Manly Council Bushcare Programme encourages the community to get involved and help protect and restore our precious urban bushland.**

**Bushcare groups work each month in a variety of bushland areas.**

**No experience is necessary. Council provides qualified supervisors, tools and gloves to use on site, plants, mulch and any additional support to the groups as needed.**

## Bushcare activities include

---

- encouraging natural bushland regeneration by removing weeds
- native plant and weed species identification
- recreating bushland by planting native species
- erosion control and mulching
- recreating habitat

## The benefits of being a bushcare volunteer

---

- great way to develop an understanding of the local environment
- free training on plants and animals
- learn how to identify weeds and the latest weed removal techniques (great to use at home in the garden)
- meet and socialise with likeminded people interested in conservation
- great sense of achievement

---

**For further information on the programme, please contact Manly Council on 9976 1448 or visit the Manly Council website <http://www.manly.nsw.gov.au/Bushland.html>**

**To register as a bushcare volunteer please contact Manly Council's Volunteer Coordinator on 9976 1556 or email [records@manly.nsw.gov.au](mailto:records@manly.nsw.gov.au).**
